

Launch of the My Safe Florida Condominium Pilot Program

By Brett G. Bleier, Esq.

After months of anticipation, the My Safe Florida Condominium Pilot Program (the “Program”) is set to launch tomorrow, November 14, 2024. The Program aims to assist eligible condominium associations by offering free mitigation inspections to best determine how to harden the condominium property from storm damage, as well as mitigation grant funds that can be used for those projects.

It is expected that applications will be made available tomorrow on the official program website, [My Safe Florida Condo](#), and eligible associations are encouraged to apply promptly due to anticipated demand. If your condominium association has not already voted to participate in the Program, we encourage you do so as soon as possible to avoid missing out on limited grant funds available. For additional details on the Program requirements and potential benefits, [click here to read our previous client alert](#).

The My Safe Florida Condo website also provides further resources, including a [FAQ](#) section to help associations navigate the application process. We recommend reviewing these materials to ensure a smooth experience.

For questions about the application process or eligibility, please reach out to our Community Association Law team.
