Stream and Wetland Permitting – The Rules Continue to Change

DATE:

Tuesday, June 29, 2021

TIME:

10:00 - 11:30 am EDT

Critical changes to stream and wetland permitting, set in motion during the Trump administration, went into effect in 2021. The changes impacted the United States Army Corps of Engineers Nationwide Permit program and the state of Ohio's ability to protect its wetlands and streams through the Clean Water Act. Join Roetzel's Environmental Law Group for a webinar in partnership with CESO, Inc., a national company that provides civil and environmental engineering consulting, as we discuss recent changes to the United States Army Corps of Engineers Nationwide Permit program as well as the Ohio Environmental Protection Agency's response to changes in the Clean Water Act.
