

Building Your Cybersecurity Response and Recovery

Mark your calendar for this 60-minute webinar

DATE: Thursday, September 24, 2020

TIME: 10 – 11 a.m.

Properly responding to a cybersecurity incident requires more than an initial remediation of the technical issues.

As cybersecurity threats become more complicated, the importance of a prompt and precise response cannot be understated. Such a response often times depends on the preparation work done prior to an incident occurring.

Key Topics

- Emerging cybersecurity threats, especially those seen in the manufacturing sector.
- Which of your company's activities do cyber criminals want to exploit?
- How to prepare incident response plans that avoid issues before they occur.
- How holistic remediation from a cybersecurity incident addresses technical and legal issues while deterring future incidents.

Who should attend?

- ✓ Chief financial officers
- ✓ IT staff
- ✓ Risk managers
- ✓ Office managers
- ✓ Purchasers of technical and legal services

Registration fee (for an unlimited number of participants at one phone/computer location)

OMA Members: **No charge**

Non-OMA Members: **\$39**
