The Ohio General Assembly is currently debating the state's two-year operating budget, while simultaneously considering several other measures impacting how education will be provided and funded in our state. This webinar is designed to assist superintendents, central office administrators and board of education members in keeping up to date on these legislative measures so that they can best plan for the impact on their own school community.

Join Roetzel attorneys Susan Keating Anderson and Lisa Burleson, along with Roetzel Consulting Solutions Director Sherri Warner, at this complimentary webinar as they provide updates and insight into the Senate's version of HB33, and discuss the steps districts can take to prepare themselves for the potential implementation of new policies. This session will provide targeted discussion and analysis of the changes to the budget bill set forth in the Senate's version of HB33.
